REMARKS

The figures of births and deaths of India shown in this statement for week ending the 1st December, 1956 relate to 205 towns with an estimated population of 31,202 thousands. Information about Andhra Predsh, Assam, Madhya Pradesh and Pondicherry could not be included. The total number of towns is 318 and their population is 41,584 thousands. Thus 64% of the total population of towns representing 75% of the total population is covered in this

statement. The number of births and deaths recorded in these towns were 21,682 and 8,191 representing birth and death rates of 36·1 and 13°7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States.
